Alexandria, VA 20231

**Submission Accompanying  
Request for Continued Examination**

Sir:

There is forwarded herewith an Information Disclosure Statement (IDS) which identifies a publication entitled "Product Data ALSEAL 505" which is product sold by the assignee of the present application over one year prior to the earliest effective filing date of the present application. The product comprises an aqueous composition that does not contain chromium and that includes dissolved potassium silicate and dispersed aluminum particles; the publication describes how the composition is used.

Applicants' claims distinguish over the disclosure of this publication at least in the respect of defining a composition which includes sodium and/or lithium silicate.

Forwarded also is Request for Continued Examination which is like the Request filed earlier today, but differing in that it includes reference to the present IDS.

Applicants do not believe that any fees are presently due. However, if fees are deemed necessary, please charge Deposit Account No. 50-1943.

Respectfully submitted,

Dated: March 21, 2011
